Mike & Jennifer,

Here's a copy of the LWG's 1/11/06 letter that the LWG describes as a preliminary response to EPA's 12/2/05 Data Gaps letter. We talked about the letter yesterday in our PH Mgr Mtg. The LWG says that the purpose of the letter is 2-fold. 1st, to describe the most significant concerns the LWG has with EPA's 12/2 letter (e.g., sediment sampling way upstream of the ISA, insertion of NRDA elements, etc). 2nd, the LWG provides some initial suggestions for filling the data gaps we identified in the 12/2 letter. We agreed, during the EPA/LWG 12/13/05 Centralia mtg, that the LWG would present EPA with suggestions for filling the data gaps. These suggestions are presented in the 7 tabs attached to the letter.

Please review the letter, but more importantly, review the tabs that concern the work you're doing to develop the scope-of-work/level-of-effort to fill the data gaps that are due to the LWG 2/17/06.

Thanks
